

# RETURN TO SCENE

---

## Are you an enthusiastic graduate looking to start your career in visualisation technology and digital survey?

As part of our growing Operations Team, the successful applicant will support the operations team on the digital survey and build process within our award-winning R2S software. He/she will specifically assist the senior surveyors in testing and assessing potential new hardware and supporting the continuous update of projects.

This position is for an initial period of 12 months with the potential of becoming permanent.

### Role Description

The project this candidate will support is fundamental to the growth and development of R2S. The candidate will undertake a range of testing and development planning exercises. The candidate will undertake this work on both client projects and internal R&D testing projects.

### Qualifications

To have graduated in a related discipline. For example; photography, visual design, design, surveying techniques, BIM, engineering or architecture.

### Essential Skills

- Ability to plan, prioritise and organise multiple work tasks
- Written and verbal communication skills
- Interpersonal skills
- Good computer and software application skills, including the ability to work comfortably on networked systems and trouble shoot basic issues
- Word, Excel, Microsoft Office
- Good team player, but able to work on own initiative
- Ability to be creative, flexible and innovative
- Methodical
- Self-motivated

### Desirable Skills

- Experience in the use of technical equipment including DSLR Cameras
- Photographic experience

***Candidates must have graduated within the last 3 years.***

***Please send your CV with covering letter by 19<sup>th</sup> February 2018 to [careers@r2s.co.uk](mailto:careers@r2s.co.uk)***
